

# ALONE & TRAPPED

## BRODY

(he/him)

I was inspired because the feeling of loneliness often gets overlooked, because it is so common. But it can lead to things like depression, so in truth it is important. It was also a class assignment.

At a baseline it is a person in a deep hole with their head in/on their knees. The meaning is that this person feels trapped in this hole because they have no one to help them, so they are stuck.
